Career Objective

AI/ML-focused Computer Science student with strong foundations in Data Structures, Object-Oriented Programming, and Machine Learning. Passionate about building intelligent systems, scalable applications, and solving real-world problems using modern technologies.

Education Profile

B.Tech — Computer Science Engineering (AI & ML) 2023 – 2027
Prasad V. Potluri Siddhartha Institute of Technology
CGPA: **8.86 / 10**

Technical Skills

Programming Languages	Java, Python, C
Core Computer Science	Data Structures and Algorithms, OOP, Operating Systems, Computer Networks
AI / ML	Supervised Learning, Unsupervised Learning, CNN, NLP
Web Technologies	HTML, CSS, JavaScript, React, FastAPI
Databases	MySQL, MongoDB
Tools	Git, GitHub, VS Code, MySQL Workbench

Projects

Flash Coach — AI Coaching Platform [GitHub](#)

- Developed a full-stack AI coaching platform using FastAPI and MongoDB.
- Integrated Whisper + gTTS voice pipeline for interactive communication.
- Implemented OTP authentication and personalized mentor feedback system.

Digit Recognizer [GitHub](#)

- Built a CNN model using MNIST dataset for handwritten digit classification.
- Deployed the model using Flask with real-time prediction interface.

LawGenius AI Chatbot [GitHub](#)

- Designed an AI-powered legal assistant using NLP and domain-specific datasets.
- Implemented intelligent legal query answering and automated document generation.

Certifications

- NPTEL — Design and Analysis of Algorithms, Machine Learning, R Programming
- AWS Generative AI Certification
- Google Cloud Foundations
- Java & Python Certification — IIT Bombay
- Cisco Certifications — Networking, Python, Cybersecurity

Achievements

- Secured **2nd Prize** in Chatbot Hackathon conducted by Codegnan.
- Participated in multiple hackathons and technical coding events.
